#### MARINES AT THE WORLD'S FAIR. THE BRICK BATTLESHIP ILLINOIS WILL BE A VERITABLE MAN-OF-WAR.

Washington, April 4 (Special).-The commandant of the Marine Corps to-day issued orders affecting officers and men of that corps who will be attached to the brick ship Illinois at Chicago during the World's Fair. In all fifty marines and three officers will form the guard of the Illinois. They will be quartered in special tents provided for them. The tents will be pitched on a knoll near the end of the leading to the Illinois and form a regular camp, with all outward semblance of field service. Inside the tents the officers and men will be suppiled with the many comforts which progress in recent years has found necessary for their health and Bunks with wire-woven bottoms, mattresses, boxes for uniforms and equipments, lantern from which a considerable light will be thrown and ther accessories which would appear to the veterans of the rebellion as veritable luxuries will be furnished

will no doubt be an object of much interest to visitors at the Fair. It is not intended that the marines shall live on the Illinois, only a number sufficient for sentinels and guides being detailed daily for duty on the ship. The guard of the Illinois will be composed of picked men chosen for their good character and soldierly appearance. In a few days they will rendezvous at the barracks in this city and be put through a course of preliminary instruction and training. The guard will be commanded by Captain B. R. Russell, who will have as aldes First Lieutenant Barnett and Second Lieutenant Radford. Captain Russell commanded the guard of marines which a few years ago achieved a high reputation for their bearing and conduct at the Paris Exhibition and won the enthusiastic praise of United States Commissioner McCormick. Colonel Heywood, commendant of the Marine Corps, said to-day that he hoped to have the Marine Band present as a part of the Naval exhibition at the World's Fair on May 1, when the President will formally open

on May 1, when the President will formally open the ceremonies.

Besides the marines a detachment of blue-jackets will also be on duty on the Illinois. These men will probably be selected from the receiving ship at New-York and will be typical representatives of the best class of American seamen. They will be quartered on board the Illinois. Altogether the naval display at the Fair will be thoroughly realistic. The dummy ship is outwardly an exact counterpart of a tattle-ship and with the gans and other appurtenances and the saflors and marines in constant performance of their routine duties, a veritable man-of-war will be presented.

## A NEW RAPID FIRE GUN TESTED.

CHARLES W. SPONSEL'S INVENTION SUCCESS-FULLY TRIED AT HARTFORD.

shington, April 4 (Special).-Reports were ceived here to-day of recent tests at Hartford of the Sponsel rapid-fire one-pounder gun, a description of which appeared in these dispatches a few days ago. These reports show that the tests, while severe and in strict conformity with regular service conditions, were highly satisfactory and proved this new American invention to be a formidable rival of modern weapor of this class. The tests to which the gun was sub lected related particularly to its rapidity and case of Thirty shots a minute were fired from gun with an inexperienced feeder. Experts pres ent estimated that with a trained crew thirty-five to forty shots could be discharged in the same time. The working of all parts of the gun was smooth and perfect. No defective ammunition was used, as the gun had previously demonstrated its efficiency in this direction. The clearance space for gases to pass into the breech, thought by some experts to be insufficient, was found to be ample for quick, accurate manipula-tion. The tests further showed the gun to be very effective up to 2,500 yards.

From the reports it appears that the inventor, From the reports it appears that the inventor, Charles W. Sponsel, an employe of the Pratt & Whitney works at Hartford, has added several important improvements to the gun. These improvements are in and about the breach-block, and consist mainly in a reduction and simplification of the number of parts of the breach mechanism. This gun is to be officially tested in a few days, probably on Saturday, at the Indian Head proving grounds by a board of Naval officers. Take test will be a most thorough one and will fully determine the gun's efficiency for actual service. It is claimed for the Sponsel gun that in addition to its being as rapid and effective as other similar inventions, the comparatively small number and simplicity of its parts greatly reduce its cost of manufacture.

THE PRESIDENT WILL LOOK OUT FOR NEW-YORK Washington, April 4.-It is a general understanding at the Treasury Department that Secretary Carlisle when he accepted the Treasury portfolio, did so with the express stipulation that he was to be relieved of responsibility as to appointments under the Treasury Department in New-York State. Practically the dition of affairs obtains in the other executive departments as to Federal appointments in New-York State. The President and Secretary Lamont, who are entirely familiar with the situation there who are entirely familiar with the situation there, will dicfate what appointments shall be made in that fitate. This relieves the several Secretaries, and especially Secretary Carlisle, from what might have proved a source of embarrassment. While it is thought that a sub-Treasurer at New-York may be nominated this week, still as the matter is exclusively in the hands of the President, it is not known what complications may arise to postpone the nomination.

## SEEKING SOMEBODY TO DISCHARGE.

According to an official in the Department this action has been to an omeial in the Department this action has been taken with a view to weeding out those in the Department who hold their places because of "an amiable tradition." Whether there are any such persons in the Department has not yet been determined. It is reported, and on good authority, that tradition and precedent will not obtain in the State Department during the incumbency of Secretary Gresham and that there will be less red tape and greater dispatch of business hereafter.

## THE NET GOLD BALANCE IS \$6,000.000.

Washington, April 4.-The net gold balance in the Pressury Department this morning, deducting the shipment of \$1,500,000 made from New-York yesterday, is \$6,000,000. Yesterday's shipment was the largest made for several weeks, and all of it was drawn from the New-York Sub Treasury. In the ordinary course of business the New-York Sub-Treasury gained \$300,000 in gold, so the net loss by yester anned \$300,000 in goid, so the like his color and hay's shipments was \$1,200,000. This gold, it is renerally understood, is taken for Austrian consumption. No opinion is ventured as to when this gold unitput will stop, but Treasury officials do not hesitate to express the opinion that the Government will be able to meet all ordinary gold demands. The margin at present is sufficient to prevent even the idea being entertained that the gold reserve is in danger.

### THE ROYAL VISITORS FROM SPAIN. INFANTA EULAIJE IS DUE THIS MONTH-THE

QUESTION OF ENTERTAINING THEM. Washington, April 4.-The royal visitors from Spain, ipcluding the Spanish Infanta, are expected to arrive in New-York about April 20 on a Spanish war vessel, direct from Havana. Her Royal Highness will be accompanied by her husband, Don Antonio, the Duke of Tamanes, grand chamberlain; the Marquesa de Comillas, and the Marquesa de Arcohermoso, ladies in waiting, and by Don Pedro Jover y Tovar, secretary. With the Duke of Veragua, who will be under the decronage of Commander F. W. Dickens, will be the Marquis of Barbale, his brother; the Duchess of Veragus, the Duke's son, and a secretary. Duke's party left Madrid yesterday, and they are due in New-York on April 15. It is probable that neither party will attend the naval rendezvous at Hampton Roads, but will be in New-York to witness the naval review. Secretary Carlisle has directed the custom officials at New-York to show the royal party the utmost courtesy, and to admit their luggage free of

State Department officials are somewhat worried over the question of paying the expenses for entertaining the Spatish grandees and other foreigners who will visit the Werid's Fair. The joint resolution of Congress inviting Spanish royalty to participate in the opening ceremonies of the exposition carried no appropriation for the purpose named. It simply states that "under his (the President's) direction the Secretary of State shall make suitable arrangements for their reception and entertainment," and Secretary Gresham is endeavocing to determine where he can secure the money necessary to carry out the instructions of Congress. It is almost certain that the necessary amount will be taken from the contingent fund of the State Department, leaving to Congress the appropriation of an amount sufficient to cover any

deficiency that may occur.

Arrangements for the reception and entertainment of the guests have not been completed, but will be in a short time. Two officers of the Navy have been detailed to take charge of the Spanish guests and escort them to all the places they will visit. The Infanta Entaile's party will be in charge of Commander Davis.

HILL AND MURPHY AS PATRONAGE HUNTERS. Washington, April 4 (Special),-" The Evening News" publishes the following interesting information about the raging success of the two New-York Senators as patronage hunters under this Administration :

"Senator Murphy has secured the appointment of Prank Welch as postmaster at Petersburg, Rensselaer County, New-York. This will probably put at rest the stories that the President will refuse to recognize the New-York Senators in the distribution of patronage. Having knocked down one ripe juley persimmon, the 'Big Two,' as Senators Hill and Murphy are called, will now apply for more and there is no one verdant enough to believe that they will ask in vain."

CARTER HARRISON WINS.,

HIS PLURALITY FOR MAYOR OF CHICAGO ESTIMATED AT 20,000.

HOW THE POLICY OF THE MEN WHO SELECTED ALLERTON IS SAID TO HAVE AIDED IN THE RESULT.

[BY TELLGRAPH TO THE TRIBUNE.] Chicago, April 4.—Carter Harrison has triumphed. At a late hour to-night all but about fifty of the 802 precincts in the city have been heard from. They give Hagrison nearly 17,000 plurality over Allerton, and the former's gains seem to be increasing. There is little doubt that Harrison will have at least 20,000 plurality. There is little information so far about the rest of the Citizens-Republican ticket, but it has undoubtedly shared Allerton's fate, with the possible exception of Van Cleave, the candidate for City Clerk, whose per-

senal populatity may carry him through.

Twenty-fourth wards of this city, was continued all day yesterday by men of the Department of Public Works under the guidance of Superintendent Lord. CARTER H. HARRISON. The forces of misrule are in the ascendancy, and for two years to come the City of Chicago is to be in the hands of the things and gambling element, in day Mrs. II. P. Fisher, who has ten days in which to vacate her property before it is torn down, said:

It's all very well for Commissioner Daly to order us spite of all the assertions of Mr. Harrison's friends to the contrary. A prominent gambler was heard to say last week that if Harrison should be elected the old games would be wide open in a short time. that houses are scarce up in the country. Up hero This is undoubtedly correct. Harrison has a debt to trict in New-York, where a family can find quarters in pay the gamblers.

He can in large measure thank his oppofor his election. The vacillating policy of the lenders for some time before Mr. Alierton was nominated made Harrison theusands of votes. First it was anand only one grocery store. It ought to go." ounced with a blare of trampets that Lyman J. Gage would be the citizens' candidate and would be indosed by the Republicans. Everybody said; "Good, Jonathan Tumpkins, a relative of the late Daniel Tompkins, once Governor of New York State, was in White Plains, yesterday to consult David Verplanck, assistant district-attorney of Westchester County, relative to making out a bill for what he termed personal damages, aside from awards to be chained for the burning of his home and the destruction of other buildings belonging to his estate. Commissioner Daly will visit the Croton Watershed again to morrow. Engineer Loomis and some officers of the Health Department will go with him. The sawers of Kensico and Brewsters will be examined and an effort made to keep the sewerage out of the city's water supply.

Commissioner Daly received a telegram from H. T. Dykman, the city's special counsel in the watershed we will elect him." Then, to the amazement of every one, Mr. Gage suddenly announced that his business interests would not permit him to enter politics. Then George R. Davis, George B. Swift and others, any one of whom could have been elected, were talked of for several days; but none of them were chosen and finally Mr. Allerton was nominated, a man unknown to the vast majority of the voters. This made it an uphill campaign of the hardest kind. and when one considers the fact that about two-thirds of the police force and a large portion of the county and city employes were working tooth and nail for

and city employes were working tooth and nail for Harrison since his candidacy was first announced, and that personal friendship secured for him the votes of nundreds of Republicans who did not know Mr. Alberton, the result is not so greatly to be wondered at.

At this hour "The Times" building is one mass of redfire, Harrison shouters are parading the streets, making all sorps of hendish noises, and a band is now playing a dirge in front of "The Hervili" building, that paper having been one of Allerton's chief supporters.

The city is acknowledged to be Democratic by at least 600; and the plurality of 532 given the Republican candidate, Jacob W. BOTH BARRETT AND HAVES NOMINATED Boston, April 4 (Special).-The Republican conven tion to choose a candidate for Congress in Senato Lodge's district, the VIIth, to-day broke up into two factions. There was a dispute as to the right of the delegates from Ward Four, Charlestown, to the seats which they occupied. The friends of Eilhu B. Hayes charged that the caucus in Ward Four had not been held according to law. The friends of Speaker Barrett maintained the contrary. If the disputed delegates were admitted Mr. Barrett would have a majority; if they were excluded Mr. Hayes would have the majority. After a long controversy the challenged delegates were admitted. The friends of Mr. Hayes thereupon withdrew from the convention and placed him in nomination. The other faction remained and nominated Mr. Barrett. The question which is the legal candidate will probably be decided by the Rallot Commissioners.
The Democratic Convention for the Vilth District met to-night, but the balloting resulted in a deadlock.

J. J. O'DONOHUE WOULD NOT HAVE IT. HE WANTED THE COLLECTORSHIP AND DIDN'T CARE TO BE ASSISTANT TREASURER.

There is little doubt that President Cleveland has offered the place of Assistant Treasurer of the United States to Joseph J. O'Donohue, nor is there much doubt that Mr. O'Donohue has declined the office. Ellis H. Roberts is still Sub-Treasurer in this city, awaiting the appointment of some Democrat to succeed him. It was reported yesterday O'Donohue had scerned the office offered him by the President, and that he was much disappointed not to have been made the Collector of the Port of New-York. He had been promised the Collectorship last December, it was said, but owing to the influence of William R. Grace, ex-Secretary Fairchild, E. Fliery Anderson and other anti-Snapper and anti-Tammany Democrats, that place was reserved for William A. Poucher, of Oswego. Mr. O'Donohue had incurred their displeasure when, at the meeting of the New-York Presidential Electors, he had indered Edward Murphy, jr., for United States Senator.

Mr. O'Donohue, when seen at his office, No. 101 Front-st., yesterday, at first said to a Tribune re-porter, regarding the rumor that he had refused the office of Assistant Treasurer: "I decline to answer all questions." Later, however, he replied: "I will say this much: I will not deny it."

"If the position were offered to you, would you accept It ? "What was the tone of the letters which passed

between you and President Cleveland?"
"The correspondence between the President and myself was entirely friendly. I have a letter from him here, but I prefer not to publish it for the present. It is exceedingly flattering to me, and no insult to me was implied or expressed in it. I am as loyal to Mr. Cleveland as any one is. He made no promises to me in December, as it was reported. I am not a candidate for any office. Several of my friends, however, have presented my name for the Collectorship. Alexander E. Orr has written a beautiful letter to tresident Cleveland. Henry Henta, president of the Cotton Exchange: J. Edward Simmons, president of the Business Men's Democratia Association; Evan Thomas, the former treasurer and president of the Produce Exchange, and Roswell C. Roiston, president of the Farmers' Loan and Trust Company, have also interested themselves in my appointment to that office. I think that a merchant is the only proper person to be the Collector of this port. I am not a politician nor an office-seeker, though I have spent much money to elect Democrats. Henry Hentz said: "Mr. O'Donohue has himself told me that he would like to have the Collectorship as the crowning point in his life. I think he would administer the office justly and independently, so that his last and highest public service would redound to his credit. I think his friends will make another effort to get the place for him." as loyal to Mr. Cleveland as any one is. He made no

JOHN M'KINNEY CALLS FOR JUSTICE AND RE-CEIVES THE ELECTION. There was a somewhat excited scene at the Fiat-

terday. Three candidates were in the field, Post-master C. L. Zellinsky, Republican; John McKinney, Citizens', and William McMahon, Democrat. Mahon, who is a justice, appointed twelve men to act as watchers in his interest. McKinney was unable as watchers in his interest. Acknowly was unable to se une the appointment of any watchers from the other justices, who are all Democrats, but finally he induced the Police Commissioners to appoint two watchers in his interest. McMahon and his men had been on hand from suurise, and when McKinney and his watchers appeared at 0.30 o'clock they were turned outside the hall. McKinney stepped upon chair and addressed the throng, saying:

that the nomince of the Citizens' ticket has no show in this place, and if something is not done promptly the Citizens' ticket will be badly left. The aisles by virtue of their appointment are opposed to the best interests of the town, and the only way we can expect any justice is to take it by force. That is just what I propose to do. Will you back me up in my attempt to secure an honest vote!"

"We will; you can bet we will!" shouled his

"We will; you can bet we will;" shouted his triends.

"Then we will go in and clear the place of every man except the regular police officers," said Mo-kinney.

Patrick Rooney, a sturdy, broad-shoul-tered man, stepped on the ballot-box table and shouted: "We'll clear out the whole gang, boys, and see that Honest John Mckinney gets his rights."

The policemen were swept aside and three veto watchers had been selzed, when Supervisor Lyman and Town Clerk Hesterberg called a halt and asked McKinney what he wanted. He said he demanded simple justice, and that he should have as many watchers as McMahon, or that all should be removed. The latter proposition was agreed to, and the voting was undisturbed afterward. McKinney was elected by a majority of 183 over McMahon.
